

Handout 3-6

Assignment

1. Complete a Services Inventory

- Source of Information: Review the types of treatment, rehabilitation and support services that are funded with county base funds, CHIPPS funds and Reinvestment funds (if applicable). These services will include mandated services such as outpatient treatment and case management but may also include services such as drop –in center, mobile psychiatric rehabilitation, mobile medication, representative payee, crisis support and housing support.
- How Used in Plan: This will help in your response to II.4. Services Capacity

2. Select a housing objective from handout 2-8 and determine which services are currently available for your housing project. Most importantly, identify gaps in services needed to support this housing project.

- Source of Information: Your services inventory results from question #1 and other support services identified in “Faces”.
- How Used in Plan: This will help in your response to Objectives 5, 6, and 7

3. Identify potential resources to help fill the identified services gap

- Source of Information: Potential Resources might include conversion of funds, new funding sources such as CHIPPP, Reinvestment funds, grants or development of service delivery partnerships with other community agencies, churches and volunteers.
- How Used in Plan: This will help in your response to Objectives 5, 6, and 7

4. Working with your planning team, draft your county’s housing plan using the OMHSAS Housing Plan Template

- Source of Information: All of the assignments you have completed to date and the skills and knowledge of your team.
